WWW.SN22.ORG Needs Website Volunteers

Photo Credit: Washington Sun Dial by Mike Rastiello

Our all-volunteer organization is seeking help to improve Super Neighborhood 22's Online Presence @ WWW.SN22.ORG. We want to upgrade our site to a cool open-source content management system and then we welcome residents and lovers of our neighborhood to keep us informed about Washington Avenue / Memorial Park stuff.

FIRST: We are looking for just a few CMS QUASI-EXPERTS to architect and migrate existing hand-done html site to a content management system (Joomla, Drupal or other open source application). SN22's current content consists mostly of agendas, meeting notes, some op-eds, guest speaker presentations, special event content (train horns, candidate forums, transportation vision) plus a list of desired new categories and a growing pool of photographs to request use of at SN22's Flickr site. Help is needed from someone who understands content evolution and can help in *prioritizing content to categories* and then assist in actually *building the cms modules* to populate with content. *Timeline preferred is January* to accomplish this task – anticipate four ten-hour blocks of time needed to get to a go-ready state. Day, time and location to work is very flexible.

NEXT: Many CONTENT CREATORS are sought to keep the site updated with *information relevant to Memorial Park/Washington Avenue* area. Aside from the obvious monthly content needs (meeting notices, agenda postings), the content will go in whatever direction the contributors are inspired to express about – meaning, if you like to take photographs of events in the area, then we'll focus on a photo album, for example (please look at our [Super Neighborhood 22 Flickr Group Page](#) for an awesome array of photographs). The site will be easy to use and set up as a team editorial effort ensuring timely and fine presentation of information.

While the board has agreed that sn22.org is not intended to be a commercial site with advertisers, we are open to discussion of ways to improve the organization's mission of being a forum to discuss

The Washington Avenue Corridor

Super Neighborhood Twenty-Two

neighborhood issues. At this time the pay for this is the warmth and fuzziness of being a part of an effective grass-roots organization which represents the diversity and dynamism of urban community. All ideas are welcome! All help is appreciated! Meetings will be scheduled and arranged by feedback, and posted at sn22's facebook page if relevant.

PLEASE JOIN US AT SN22'S REGULAR MONTHLY MEETING THIS COMING MONDAY, JANUARY 10TH AT DEPELCHIN CHILDREN'S HOME 4950 Memorial Dr 77007 (access via Bethje and/or Sandman Streets). This will be an excellent time to meet in person and ask any questions about the website and other neighborhood stuff.

THANK YOU!

Mary-Jane
